How We Will Calculate Your Balance: We use a method called "average daily balance (including new purchases)." See Your Consumer Credit Card Agreement and Disclosure for more details.

Promotional Period for Introductory APR: The Introductory APR for purchases and balance transfers will apply to transactions posted to Your Account during the first 18 billing cycles following the opening of Your Account. Any existing balances on TruWest Credit Union loan or credit card accounts are not eligible for the Introductory APR for balance transfers.

Billing Rights: Information on Your rights to dispute transactions and how to exercise those rights is provided in Your Consumer Credit Card Agreement and Disclosure.

Military Lending Act Disclosures: Federal law provides important protections to members of the Armed Forces and their dependents relating to extensions of consumer credit. In general, the cost of consumer credit to a member of the Armed Forces and his or her dependent may not exceed an annual percentage rate of 36 percent. This rate must include, as applicable to the credit transaction or account: The costs associated with credit insurance premiums; fees for ancillary products sold in connection with the credit transaction; any application fee charged (other than certain application fees for specified credit transactions or accounts); and any participation fee charged (other than certain participation fees for a credit card account).

Please call us at (855) 878-9378 to receive oral disclosures of the Military Lending Act disclosure above and a description of the payment obligation.

Variable Rate: We calculate Your variable rate by adding 2.70% to 17.75% ("margin") for purchases, 2.70% to 17.75% ("margin") for balance transfers, and 10.70% to 18.70% ("margin") for cash advances to the Prime Rate published in the "Money Rates" table of *The Wall Street Journal* ("Index") on the first day of each month following the index change. If the Index is not published on that day, then see the immediately preceding edition. If the Prime Rate changes, Your new APR will take effect on the first day of the billing cycle. For Texas borrowers, the ANNUAL PERCENTAGE RATE will never be greater than 17.99%. Any increase in the ANNUAL PERCENTAGE RATE will result in an increase in the amount of the interest You will pay, may increase Your minimum payment, and may increase the number of payments to pay off Your balance.
